# We've Simplified Locating with

## A

**On-Screen Arrows—**  
No need to interpret numbers and bar graphs. The arrows point you in the right direction.

The new Gen-Eye Hot Spot™ pipe locator makes locating easier than ever. Its total field antenna array and on-screen icons lead you right to your target, without the long learning curve.

Whether you're an experienced pro or a first time user, you can quickly locate inspection cameras, sondes, active power lines and utility lines with pinpoint accuracy. No need to interpret numbers and bar graphs.

## Gen-Eye Hot Spot's Unique Mapping /

## B

**Null Point Icon—**  
All four arrows point back toward each other to indicate the null point and the pipe location.

### Features

**Easy to read display** – Icons lead you to your target. Auto backlight lets you locate in dimly lit areas.

**Total field antenna array** – Allows you to locate from any direction.

**Line direction compass** – Tells you the lay of the pipe.

**Industry's most rugged locator** – Its IP65 rating is the industry's highest for performing in dusty, dirty or wet jobsite conditions. Passed 1-meter drop test; screen passed 18" steel ball drop test.

**Superior Battery Life** – Lasts approximately 30 hours—more than twice as long as others. Automatic shutdown feature saves power.

**Expanded Frequencies** – Locates two sonde frequencies, two power frequencies and four line frequencies (with external transmitter).

**Upgradeable Software** – Use the USB port to upgrade software in the field or for a screen capture.

**Simple, menu-based user interface** – No need for multiple screens. Easy-to-access menus make it easier to use than other locators.

# the Gen-Eye Hot Spot™ Locator.

The easy-to-see auto backlit LCD display shows you the way with arrows that point you in the right direction every time. Utility line location and active buried power line locating is just as easy.

The Hot Spot is the industry's most rugged locator. Rated at IP65, it is dust and dirt proof, and water resistant. It passed the one meter drop test and the screen passed the 18" steel ball drop test.

# C

**Line Direction Compass—**  
Arrows around the outside of the circle tell you which way to rotate the locator until you are in line with the lay of the pipe.

## Directional Guidance System:

### Specifications

**Camera/Sonde Frequencies:** 512 Hz and 33KHz

**Line/Utility Frequencies:** 1KHz, 8KHz, 33KHz, 65KHz

**Active Power Line Frequencies:** 60/50Hz and 180/150Hz

**Depth Range:** 10 ft. in cast iron pipe/20 ft. in clay or plastic

**Screen:** LCD Digital Signal Read-Out, Graphic Display, Directional Arrows, Null Icon, Camera Icon, Utility Icon, Audible Tone, Auto Digital Depth, Battery Status, Auto Backlight

**Antenna Configurations:** Total Field, Single Peak, Twin Peak, Null and Left/Right (Line Location Only)

**External Ports:** Mini USB

**Weight:** 4.8 lbs./2.18 Kg

**Batteries:** 2 D-cell alkaline  
(Approximately 30 hours of life)

**Operating Temperature Range:** -4° F to 122° F  
(-20° C to 50° C)

# D

**Camera Icon—**  
When you're directly over the camera, the diamond appears at the center of the circle. Depth will automatically appear on the screen as well.

# Gen-Eye Hot Spot™ 5-Watt Transmitter

Locating buried utilities used to be tough. Not anymore! With the powerful 5-watt Hot Spot transmitter, location is easier than ever. More power means more signal to locate. Choose one of 4 frequencies – 1KHz, 8KHz, 33KHz or 65KHz.

**Utility Icon—**  
Indicates buried utilities or active power lines. Circle the energized pipe or active power line until the diamond appears on the line.

In tandem, the Hot Spot locator and this matching Gen-Eye Hot Spot Transmitter finds buried utilities quickly and easily. Like the locator, this transmitter has been designed to take the confusion out of getting the job done.

## Features

**More Power** – Powerful 5-Watt output with 5 output levels makes locating utilities easier.

**Expanded Frequencies** – Locates four line frequencies – 1KHz, 8KHz, 33KHz and 65KHz (65KHz at 1 watt max).

**Simple, menu-based user interface** – No need for multiple screens. Easy-to-access menus make it easier to use than other models.

**Easy-to-read display** – Icons indicate a quality connection and power settings. Auto backlight lets you locate in dimly lit areas.

**Superior Battery Life** – Lasts approximately 100+ hours—more than twice as long as other brands. Automatic shut-down feature saves power.

**Upgradeable Software** – Use the USB port to upgrade software in the field or for a screen capture.

## Specifications

**Line/Utility Frequencies:** 1KHz, 8KHz, 33KHz, 65KHz

**Output:** 5 Watts with 5 output settings

**Weight:** 8 lbs./3.5 Kg

**Batteries:** 10 D-cell alkaline (Approximately 100+ hours of life)

**Antenna Configurations:** Total Field, Single Peak, Twin Peak, Null and Left/Right (Line Location Only)

**External Ports:** Mini USB

**Dimensions:** 10" H x 12" L x 8" W (25.4 cm x 30.5 cm x 19 cm)

**Operating Temperature Range:** -4° F to 122° F (-20° C to 50° C)

Also available in a 1-Watt single frequency (65KHz) model

The Gen-Eye Hot Spot Locator and Transmitter are so easy to use, you'll find locating to be faster and more productive. That means more profitability for your business. To really appreciate how easy the Gen-Eye Hot Spot is to use, you

have to try it for yourself. For a free demonstration, or to see General's complete line of camera inspection systems, contact us at 800.245.6200 or visit: [www.drainbrain.com/geneye](http://www.drainbrain.com/geneye)
